

Class 1

Building Product Information Sheet

Product Name	
Sanela Spartan Piezo – Soft Touch – Stainless Steel	
Product Identifier	
SST91ACP (Mains)	
Product Description and its intended use:	
<p>Soft-touch capacitive sensor activated Sanela tapware are manufactured from stainless steel with a brushed finish. Are destined for cold or pre-mixed water. The soft-touch piezo button activation initiates water flow. Minimal touch reduces spread of germs whilst timed water running eliminates water wastage, perfect in areas where control of water usage is necessary.</p> <p>Intended use: Sanela taps are primarily used for hand washing in public spaces, educational facilities, commercial and industrial buildings, healthcare, aged care and food preparation facilities.</p> <p>Please see Sanela brochure for further technical information – www.splwashrooms.co.nz/wp-content/uploads/2024/02/1.-Sanela-Sensor-Taps-Brochure.pdf</p>	
Place of manufacturer:	Manufacturer
Overseas – Czech Republic	Manufactured for SPL (2021) Limited
Legal and trading name of importer:	
SPL (2021) Limited	SPL Washrooms
26 Gillies Street, Cambridge 3434	www.splwashrooms.co.nz
office@splwashrooms.co.nz	+6478235790
NZBN: 9429049512441	
Relevant building code clauses:	
<p>B2 Durability - B2.3.2(c) F2 Hazardous Building Materials - F2.3.1 G1 Personal Hygiene – - G1.3.2(a), G1.3.4 G12 Water Supplies - - G12.3.2(c) - G12.3.7(c) - G12.3.10</p>	
Statement on how the building product is expected to contribute to compliance:	
<p>B2 Durability</p> <ul style="list-style-type: none"> This basin mounted tap is a fixture that can be easily inspected, accessed and maintained (without the removal of other building materials that have greater durability/life expectancy) 	

F2 Hazardous Building Materials

- This tap has stainless steel construction that will not emit harmful concentrations of any substances that is exposed as per European Standards.

G1 Personal Hygiene

- This faucet is designed for sanitisation (hand washing) with cold or tempered water. Due to the soft-touch activation, they are suitable for accessible facilities for people with disabilities.

G12 Water supplies

- This product is constructed from materials that will not contaminate the water as per European Standards.
- This basin mounted tap allows reasonable access to components that may require periodic maintenance and/or repair.
- Due to the soft-touch activation, this product is accessible and usable by people with disabilities when installed correctly.

Limitations on the use of the building product:

- Destined for cold or premixed water (temperature can be regulated via thermostatic mixing valve – not included)
- Suitable for mains pressure (or pumped). Inlet pressure range 0.1 – 0.6 bar (100 - 600 kPa)

Note:

- 500 kPa maximum working pressure at any outlet within a building is a requirement of NZBC G12/VM1- AS/NZS 3500.1 & AS/NZS 3500.4.
- Not suitable for low/unequal/gravity feed systems.
- Water used primarily for personal hygiene should not exceed 50°C

Design requirements that would support the use of the building product:

- Water efficient 3.5L /min 6 Star WELS rating IANZ Accredited Laboratory
- Single temperature use (cold or premixed) which can be regulated via a thermostatic mixing valve
- Isolating taps (angle valves) must be fitted to the water supplies (Supplied)
- Solenoid Valve hidden within body of faucet
- Replacement parts readily available at SPL warehouse (NZ)
- Mains powered via 230v AC transformer. Battery version available on request
- Possible to comply with NZS4121/AS1428.1 (Design for Access and Mobility requirements)

Installation and Maintenance requirements:

All Sanela tapware must be used, installed and maintained in accordance with all information supplied by SPL Washrooms.

Please refer to 'Installation Manual' in the downloads section of the website
